Important Please Read!

If you are having difficulty changing gear then run through all the fitting parameters again – **DO NOT CONTINUOUSLY PRESS THE BUTTONS** – this will cause the unit to overheat and lose power, permanent damage **MAY** also occur resulting in failure and your replacement of parts you damaged at your cost. Units are factory checked multiple times before shipment. If the actuator heats up, there is an install problem that needs to be corrected immediately. **IF IT DOES NOT WORK STRAIGHT AWAY THEN YOU NEED TO MAKE ADJUSTMENTS ACCORDINGLY.**

INSTALLATION INSTRUCTIONS

By breaking this seal, the installer agrees to **READ and FOLLOW** all of these Instructions carefully **BEFORE** installation. **Do Not** Second guess these instructions follow them to the letter.

The Kliktronic comes with a one year manufacture warranty, from date of purchase, against ELECTRICAL failure PROVIDING that the install was done properly.

For Electrical Warranty Exchange: If there still is a problem AFTER you troubleshoot BOTH: 1. install and 2. electrical fault finding, email several pictures of the actuator install with a detailed description of the problem and any fabrications, including pictures, done to assist the install, to: Kliktronic@aol.com

Return of original part requires testing to verify the original electrical part failure. The returned part must be in tact with no cut/worn wires etc. and shipped at owner's expense for replacement to USA distributor. This process may take up to several months for replacement because part will need to be sent to England, at distributor's expense, for verification. If you choose, you may wish to order a replacement part instead of waiting for verification. Notification will be done as soon as possible, by phone or email and if the fault is from the manufacturer, refund will be issued by check from the USA distributor. Please see the website for cost of replacement parts under: order information.

Kliktronic wants you to continue riding safely. If there is anything I can do to expedite this objective, please do not hesitate to be in contact. I will do my best to give you the same service that I feel I deserve when dealing with any company, large or small.

Take care. Gail DeWitt, distributor for North and South Continents
